It is my pleasure to invite you to our 32nd annual sale. We are praying for a mild winter and a nice sunny and warm day for February 10th. It would be fun to see everybody feeling good with a smile on their face and having a great day.

I know everybody that has followed our sales would say we have come a very long way in 32 years.

We have worked hard on uniformity and have come a long way on producing bulls with low to moderate birth weights, explosive growth and premium getting carcass traits. We are striving for that with an economical cow. In our line up of AI sires you won't find the most popular bulls in the breed. What you will find are bulls that will produce progeny that are constant in the important traits that will make you more money with less work.

The people that have viewed the bulls so far, have all commented on their thickness and depth of body. We strive to make owning a Sletten bull or heifer a profitable and pleasurable experience. Please don't hesitate to call, text or email us if you have any questions.

Join us for dinner from 11:00 to 1:00!

Thank you!

John, Tammy, Jessica Sletten

Top Dollar Angus Feeder Calf Program

Top Dollar Angus is a genetic-certification and marketing company focused exclusively on the top 25 percent of the industry in carcass and growth Angus and Red Angus-influenced feeder cattle. Top Dollar Angus is a program similar to other popular branded-beef programs, except that Top Dollar Angus does its branding in the feeder cattle and calf market.

Qualified herds must have two or more generations of Angus (Black or Red) genetics with growth and carcass traits objectively ranking in the top 25 percent of the breed based on documented historical sire use. DNA evaluation conducted by Zoetis or GeneSeek is another workable method to qualify. Once your cattle have met the necessary requirements, they will be marketed under the Top Dollar Angus brand and logo, and will be promoted aggressively to a large number of feed yards and buyers. In today's market, Top Dollar Angus cattle are seeing premiums ranging from \$30 to \$70 per head above the average market.

Why the premium? Cattle feeders know that Top Dollar Angus cattle perform better and have higher grid-based carcass rewards compared to other cattle. This puts more dollars per head into the cattle feeder's pocket, which can be passed back to the producer in the form of premiums paid above market price.

Top Dollar Angus helps take the guess work and surprises out of growing and feeding cattle. Feed yards are tired of unpredictable performance and wide-ranging profitability results from group to group on cattle they purchase. Cattle often look the same and have the same colored hides, but are very different genetically. That's why the genetic certification of high-end Angus and Red Angus feeder cattle is here! The industry must differentiate the best Angus and Red Angus genetics from average cattle, and that's what Top Dollar Angus will do for you!

If you have consistently invested in high-performance Angus or Red Angus genetics, Top Dollar Angus will make your cattle stand out from the pack and get you the premiums you deserve. No matter how you market your cattle, our goal is to create more demand and higher prices for your calves.

BUY BULLS ON TARGET

Genetic Recommendations:

	Value
Marbling EPD (Marb)	+ 0.53
Dollar Grid Carcass Index (\$G)	+ 33.97

The Targeting the Brand logo is designed to highlight registered Angus bulls with greater genetic potential to produce calves meeting the most challenging specifications of the *Certified Angus Beef*® brand. Bulls must be at least breed average or better for marbling EPD and \$ Grid of non-parent Angus sires to qualify for use of the Targeting the Brand logo. Even when these numbers do not appear on the catalog listing, the logo gives you confidence that these minimum genetic requirements are met. Actual EPD requirements are outlined below based on the breed averages from the Fall 2018 Angus Sire Summary.
